USCIS Entrepreneurs in Residence

Information Summit Announcement

February 22nd, 2012
Silicon Valley, CA
8:30 a.m. – 5:30 p.m.

United States Citizenship and Immigration Services (USCIS) invites you to join us as we launch our Entrepreneurs in Residence (EIR) initiative with an Information Summit focused on ensuring that the immigration pathways for foreign entrepreneurs are clear, consistent, and better reflect today's business realities.

Through panel discussions and breakout sessions, the Summit will give participants the opportunity to share their strategic thinking and business expertise with the agency. The feedback from the Summit will inform the work of the Entrepreneurs in Residence tactical team, which will bring business experts in-house to work alongside USCIS staff to maximize current immigration laws' potential to attract foreign entrepreneurial talent.

The Entrepreneurs in Residence initiative provides USCIS with a unique opportunity to gain insights in areas critical to economic growth to ensure that USCIS policies and practices fully realize the immigration law's potential to create and protect American jobs.

If you wish to attend, please respond to this invitation by contacting public.engagement@dhs.gov. Please include your full name and the organization you represent, if any, in the body of the email and reference "Entrepreneurs in Residence" in the subject line of the email.

Space will be filled on a first come first serve basis until capacity is reached.
Participation will be limited to two representatives per organization or practice

We hope you will be able to join us for this important discussion and we look forward to engaging with you.
