49 CFR Chapter XII

Notification of Arrival Restrictions Applicable to Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within the United Kingdom or the Republic of Ireland

ACTION: Notification of arrival restrictions.

SUMMARY: This document announces the decision of the Secretary of Homeland Security (DHS) to direct all flights to the United States carrying persons who have recently traveled from, or were otherwise present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland to arrive at one of the United States airports where the United States Government is focusing public health resources (effective Friday, March 20, 2020). Flights departing after 11:59 p.m. Eastern Daylight Time (EDT) on Monday, March 16, 2020, and covered by the arrival restrictions regarding the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland are required to land at one of the airports identified in this document. These arrival restrictions will continue until cancelled or modified by the Secretary of DHS and notification is published in the Federal Register of such cancellation or modification.

SUPPLEMENTARY INFORMATION:

Background

Coronaviruses are a large family of viruses that are common in many different species of animals, including camels, cattle, cats, and bats. While it is rare, animal coronaviruses can infect people, and then spread between people (human-to-human) such as with Middle East Respiratory Syndrome and Severe Acute Respiratory Syndrome. The United States Government is closely monitoring an outbreak of respiratory illness caused by human-to-human transmission of a novel (new) coronavirus (which has since been renamed “SARS-CoV-2” and causes the disease COVID–19), first identified in Wuhan City, Hubei Province, People’s Republic of China.

The potential for widespread transmission of this virus by infected individuals seeking to enter the United States threatens the security of our transportation system and infrastructure, and the national security. Noting recent pronouncements by the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC) for the novel coronavirus outbreak, including the categorization by WHO of COVID–19 as a pandemic on March 11, 2020, and to assist in preventing the introduction, transmission, and spread of this communicable disease globally and in the United States, DHS, in coordination with CDC and other Federal, state and local agencies charged with protecting the American public, is implementing enhanced protocols to ensure that all travelers seeking to enter the United States with recent travel from, or who were otherwise recently present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland are provided appropriate public health services.

The enhanced arrival protocols concerning travelers with recent travel from, or who were otherwise recently present within, the People’s Republic of China, excluding the Special Administrative Regions of Hong Kong and Macau, identified in the documents published at 85 FR 6044 on February 4, 2020 and 85 FR 7214 on February 7, 2020, also remain in place, except that flights are permitted to land at two additional airports pursuant to the notification posted on the Federal Register public inspection page on March 13, 2020. The enhanced arrival protocols concerning travelers with recent travel from, or who were otherwise present within, the Islamic Republic of Iran, identified in the document published at 85 FR 12731 on March 4, 2020, also remain in place except that flights are permitted to land at two additional airports pursuant to the notification posted on the Federal Register public inspection page on March 13, 2020. Travelers with recent travel from, or who were otherwise present within, the countries of the Schengen Area also remain in place, identified in the document posted on the Federal Register public inspection page on March 13, 2020.

Enhanced traveler arrival protocols are part of a layered approach used with other public health measures already in place to detect arriving travelers who are exhibiting overt signs of illness. Additional measures include requiring carriers to distribute a Centers for Disease Control and Prevention (CDC) health declaration form to passengers on flights originating in the People’s Republic of China, excluding the Special Administrative Regions of Hong Kong and Macau, the Islamic Republic of Iran, specified countries in the Schengen Area, the United Kingdom (excluding overseas territories outside Europe), and the Republic of Ireland to support CDC passenger health screening and contact tracing. U.S. Government Representatives will collect this form from passengers upon arrival in the United States. Other measures to protect the public include reporting ill travelers identified by carriers during travel to appropriate public health officials for evaluation, and referring ill travelers arriving at a U.S. port of entry by CBP to appropriate public health officials in order to slow and prevent the introduction into, and transmission and
spread of, communicable disease in the United States.

To ensure that travelers with recent presence in the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland are screened appropriately, DHS directs that all flights to the United States carrying persons who have recently traveled from, or were otherwise present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland arrive at airports where enhanced public health services and protocols have been implemented. Although DHS will continue to work with carriers to ensure that they identify potential persons who traveled from, or who have otherwise recently been present within, the affected areas prior to boarding, carriers shall comply with the requirements of this document in all cases, including when such persons are identified after boarding but prior to takeoff.

On Friday, January 31, 2020, DHS posted a document on the Federal Register public inspection page announcing the DHS Secretary’s decision that arrival restrictions regarding the People’s Republic of China (excluding the Special Administrative Regions of Hong Kong and Macau) would go into effect at 5 p.m. Eastern Daylight Time on Sunday, February 2, 2020, at seven airports. The document announcing this decision was published in the Federal Register on February 4, 2020 at 85 FR 6044. On Friday, February 7, 2020, DHS published a document adding four airports to the list of airports where flights subject to the arrival restrictions are permitted to land and describing when the arrival restrictions would include those airports. See 85 FR 7214. On Friday, March 13, 2020, DHS posted a document on the Federal Register public inspection page adding two airports to the list of airports where flights subject to the arrival restrictions are permitted to land.

As with actions related to the People’s Republic of China, the Islamic Republic of Iran and the countries of the Schengen Area, DHS anticipates that airlines will be able to fully support implementation of these arrival restrictions.

Notification of Arrival Restrictions Applicable to All Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within the United Kingdom, Excluding Overseas Territories Outside of Europe, or the Republic of Ireland

Pursuant to 19 U.S.C. 1433(c), 19 CFR 122.32, 49 U.S.C. 114, and 49 CFR 1544.305 and 1546.105, DHS has the authority to limit the locations where all flights entering the U.S. from abroad may land. Under this authority and effective for flights departing after 11:59 p.m. Eastern Daylight Time on Monday, March 16, 2020, I hereby direct all operators of aircraft to ensure that all flights carrying persons who have recently traveled from, or were otherwise present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland only land at one of the following airports:

- John F. Kennedy International Airport (JFK), New York;
- Chicago O’Hare International Airport (ORD), Illinois;
- San Francisco International Airport (SFO), California;
- Seattle-Tacoma International Airport (SEA), Washington;
- Daniel K. Inouye International Airport (HNL), Hawaii;
- Los Angeles International Airport (LAX), California;
- Hartsfield-Jackson Atlanta International Airport (ATL), Georgia;
- Washington-Dulles International Airport (IAD), Virginia;
- Newark Liberty International Airport (EWR), New Jersey;
- Dallas/Fort Worth International Airport (DFW), Texas;
- Detroit Metropolitan Airport (DTW), Michigan;
- Boston Logan International Airport (BOS), Massachusetts; and
- Miami International Airport (MIA), Florida.

This direction considers a person to have recently traveled from, or otherwise been present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland if that person departed from, or was otherwise present within, the United Kingdom, excluding overseas territories outside of Europe, or the Republic of Ireland within 14 days of the date of the person’s entry or attempted entry into the United States. For purposes of this document, crew and flights carrying only cargo (i.e., no passengers or non-crew) are excluded from the applicable measures set forth in this notice.

This direction is subject to any changes to the airport landing destination that may be required for aircraft and/or airspace safety, as directed by the Federal Aviation Administration.

This list of affected airports may be modified by the Secretary of Homeland Security, in consultation with the Secretary of Health and Human Services and the Secretary of Transportation.

This list of affected airports may be modified by an updated publication in the Federal Register or by posting an advisory to follow at www.cbp.gov. The restrictions will remain in effect until superseded, modified, or revoked by publication in the Federal Register.

For purposes of this Federal Register document, “United States” means the States of the United States, the District of Columbia, and territories and possessions of the United States (including Puerto Rico, the U.S. Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and Guam).

The Acting Secretary of DHS, Chad F. Wolf, having reviewed and approved this document, is delegating the authority to electronically sign this document to Christina E. McDonald, who is the Federal Register Liaison for DHS, for purposes of publication in the Federal Register.

Christina E. McDonald,
Federal Register Liaison, U.S. Department of Homeland Security

DEPARTMENT OF THE TREASURY
Fiscal Service
31 CFR Part 210
[FISCAL–2019–0001] RIN 1510–AB32
Federal Government Participation in the Automated Clearing House

AGENCY: Bureau of the Fiscal Service, Treasury.

ACTION: Final rule.

SUMMARY: The Department of the Treasury, Bureau of the Fiscal Service (Fiscal Service or “we”) is adopting the changes proposed in its Notice of Proposed Rulemaking (NPRM) for its regulation governing the use of the Automated Clearing House (ACH) Network by Federal agencies. Our regulation adopts, with some exceptions, the NACHA Operating Rules developed by NACHA—The Electronic Payments Association (now known as Nacha), as the rules governing the use of the ACH Network by Federal agencies. We are issuing this final rule to address changes that Nacha has made to the NACHA Operating Rules since the publication of the 2016 NACHA Operating Rules & Guidelines book. These changes include amendments set forth in the 2017, 2018, and 2019
