Student and Exchange Visitor Information System

Exchange Visitor Program (J-visa) Release 5.10 August 1, 2008 This presentation is an overview of the changes in Release 5.10 of the Student and Exchange Visitor Information System (SEVIS) for exchange visitor program sponsor users, which includes the following:

- New Functionality:
 - Student Academic Training
- Form DS-2019 updates:
 - Draft Forms DS-2019 and the 212(e) indicator
 - Updates to the Form DS-2019
- Updates to Country Lists/Tables

College/University Student Academic Training

A college/university student exchange visitor (EV) may participate in academic training during his or her studies, with the approval of the academic dean or advisor and the RO or ARO.

The student must present to the RO or ARO a letter of recommendation from his or her dean or advisor setting forth:

- Goals and objectives of the specific academic training program.
- A description of the academic training program.
- How the academic training relates to the student's major field of study.
- Why it is an integral or critical part of the student's academic program.

College/University Student Academic Training

The RO or ARO must review the letter of recommendation to make a determination whether the academic training currently being requested is warranted, and the criteria and time limitations are satisfied [see 22 CFR 62.23(f)(5)(ii)(C)]. To meet the regulatory requirement of 22 CFR 62.73(b), this information must be entered into SEVIS.

See 22 CFR 23, College and University Students, and 22 CFR 62.73, Academic Training.

College/University Student Academic Training

A new menu, Academic Training, is being added to the *Exchange Visitor Information* screen for college/university students.

The <u>Add Student Academic</u> <u>Training</u> link will display on the menu.

Student Academic Training History

The Student Academic Training History screen will display after the <u>Student Academic Training History</u> link is selected. The RO and AROs will be able to view only the data specific to participants in their program.

For example, if the EV participated in academic training while at program A, and then transferred to Program B, the RO and AROs at Program B will NOT see the academic training information at Program A.
