SUPPLEMENTARY INFORMATION:

I. Background

The ETA–9016 Report is used by the Department of Labor to assess whether (and the extent to which) the requirements of the U.S. Citizenship and Immigration Services (USCIS), Systematic Alien Verification for Entitlement (SAVE) system are cost-effective and otherwise appropriate for the Unemployment Insurance (UI) program. In addition, data from the Alien Claims Activity report is being used to assist the Secretary of Labor in determining whether a State Workforce Agency's (SWA) administrative costs associated with the verification program are reasonable and reimbursable. There is no other report or system available for collecting this required information. The report allows the Department of Labor to determine the number of aliens filing for UI, the number of benefit issues detected, the denials of benefits to aliens, the extent to which State Agencies use the system, and the overall effectiveness and cost efficiency of the verification system. If SWAs are not required to submit the information on the Alien Claims Activity Report, the Department of Labor would not be able to fulfill its responsibilities to assess the SAVE system.

II. Desired Focus of Comments

Currently, ETA is soliciting comments concerning the proposed extension of the collection for the ETA 9016 Report on Alien Claims Activity, and is particularly interested in comments which:

- * Enhance the quality, utility, and clarity of the information to be collected; and
- * Minimize the burden of the collection of information on those who are to respond, including through the use of electronic collection techniques.

III. Current Actions

Continued collection of the ETA–9016 data will provide for a comprehensive evaluation of the UI Alien Claims Activities. The data are collected quarterly, and an analysis of the data received is formulated into a report summarizing the Alien Claims Activity by the 53 SWAs.
