

TABLE OF CHANGES

FORM I-360

21 Sep 12

Reason for Change: U.S. Customs and Border Protection (CBP) is in the process of automating Form I-94 Arrival/Departure Records to streamline passenger processing. CBP enters data admission information into the Treasury Enforcement Communications System (TECS) and the Arrival and Departure Information System (ADIS). Form I-94 admission information is used by U.S. Citizenship and Immigration Services (USCIS) to search TECS and ADIS in order to verify applicant, petitioner or beneficiary status in the United States at the time an application or petition is filed. Additional data fields, related to passport or travel document information captured by CBP at the port of entry, are being incorporated for USCIS to use to search TECS and ADIS to verify an alien's status in the United States.

USCIS is also adding clarifying language in the Religious Denomination Certification, which is part of Form I-360, to elucidate who is the attesting organization and who will sign the Religious Denomination Certification
