

TABLE OF CHANGES
FORM I-129F
9/27/12

Reason for Change: These changes are being undertaken to convert the current I-129F from one column to two column format, and make clarifying changes. In addition, U.S. Customs and Border Protection (CBP) is in the process of automating Form I-94 Arrival/Departure Records to streamline passenger processing.. CBP enters data admission information into the Treasury Enforcement Communications System (TECS) and the Arrival and Departure Information System (ADIS). Form I-94 admission information is used by U.S. Citizenship and Immigration Services (USCIS) to search TECS and ADIS in order to verify applicant, petitioner or beneficiary status in the United States at the time an application or petition is filed. Additional data collection fields are being incorporated into several USCIS forms to enable verification of status in the United States based upon passport or travel document information captured by CBP at the port of entry, which also may be used to search TECS and ADIS.

This form and its instructions have been reviewed by the front office previously; they are being rerouted now due the introduction of additional fields of information to accommodate the I-94 discontinuation.
