

AFFIDAVIT REGARDING MY SON'S MEDICAL CONDITION AT DILLEY DETENTION CENTER

1. My name is 2. I have been detained at the Dilley family detention center for over a week with my son who was born on (4 years old). 3. We were first detained after we crossed the U.S. border on September 6, 2015. 4. My son has had two medical conditions since about a year ago. The first problem is that has been losing his hair. His hair loss has worsened significantly since he has been detained at the Dilley family detention center. The second problem is that is right eye is swollen, painful, and red. Tears continuously flow out of only this eye. 5. I tried to get medical treatment on or about September 14, 2015. When I went to the medical unit, we saw a doctor and I explained so condition. The only thing that the doctor did was perform a vision test on seye. 6. The doctor told me that there was nothing that the medical unit could do about loss because the problem was just allergies. 6. The doctor told me that there was nothing that the medical unit could do about loss because the problem requires a specialist that is not available at the Dilley detention center. Another doctor saw and told me that the problem seemed urgent and that I should obtain a specialis: as soon as I am released. 7. I believe that my son's hair loss condition has gotten worse since we have been detained and that he needs urgent care from a specialist. I also believe that seye condition is not due to allergies and is more serious.		
who was born on (4 years old). 3. We were first detained after we crossed the U.S. border on September 6, 2015. 4. My son has had two medical conditions since about a year ago.
