Subject: USCIS Launches 'History' Tab for Policy Manual

USCIS has made historical versions of the USCIS Policy Manual available to the public. These historical versions will reflect the pertinent policy in effect on a particular date and are being provided for research and reference purposes only. Users can find the historical versions under the "History" tab within the Policy Manual chapters. However, this tab will only reflect historical changes moving forward. For historical versions before June 11, you can visit the [Internet Archive](#).
