

**TABLE OF CHANGES- FORM**  
**FORM I-539, Application to Extend/Change Nonimmigrant Status**  
**OMB No. 1615-0003**  
**02/05/2013**

**Reason for Revision:** U.S. Customs and Border Protection (CBP) is in the process of automating Form I-94 Arrival/Departure Records, to streamline passenger processing. CBP enters data admission information into the Treasury Enforcement Communications System (TECS) and the Arrival and Departure Information System (ADIS). Form I-94 admission information is used by USCIS to search TECS and ADIS in order to verify applicant, petitioner or beneficiary status in the United States at the time an application or petition is filed. Additional data collection fields are being incorporated into several USCIS forms to enable verification of status in the United States based upon passport or travel document information captured by CBP at the port of entry. The data may be used to search TECS and ADIS. This additional information is deemed necessary to collect in order to ensure timely verification in cases where the individual does not have his or her Form I-94 admission information, particularly as a result of CBP's automation of the Form I-94 process. The changes being proposed will be made to the most recent edition of the form approved by OMB, awaiting posting to the USCIS website, and are considered minor in nature.
