Subject: Tracking of ER Conversions to WA/NTA

Chiefs / Deputies-

On November 17, 2017, Deputy Chief (b)(6), (b)(7)(C) iterated guidance (see attached) as it relates to processing FMUA's as Expedited Removals (ER) and not Warrant of Arrest/Notice to Appear (WA/NTA). This guidance articulated that FMUA's may be processed as WA/NTAs only when Family Residential Centers (FRC) are at full capacity.

This means all aliens amenable to ER will be processed as an ER unless notified there is no bed space. In addition, USBP will not release illegal aliens from custody without approval from Chief Provost. Requests for release from custody will be transmitted to the respective LEOD Corridor (east or west) and staffed through HQ.

These guidelines are critical. To ensure apprehensions are processed via ER and only those requiring issuance of a NTA/WA receive one, the following actions will occur:

1. Sectors identify a primary and secondary POC to review processing matters with HQ staff. Transmit POCs via email by 12:30 pm January 16, 2017 to respective corridor liaisons.
2. Sectors report the amount of conversions from ER to NTA/WA to the Migration CAT (MCAT) daily by 8:00 am (via attached form)
3. Sectors submit all requests to OR individuals to LEOD for routing to Chief Provost's office for approval

It is critical that your POCs are identified in a timely manner. These individuals will be our initial point of contact for matters involving conversions after departing USBP custody. Additionally, the MCAT and LEOD Ops teams will utilize the identified POCs to de-conflict matters associated with the review of records, bed space, ORs and other matters deemed essential.

To review the processing dispositions, HQ will work with your POCs to sample the dispositions of previously detained illegal aliens. It is critical that we review this matter appropriately and provide Chief Provost with the information necessary to advocate for additional bed space for illegal aliens detained by the Border Patrol.

Thank you for your adherence to this guidance and providing your POCs in a timely manner. I realize that this adds additional work for your teams, we have tried to pull this info electronically, but we are unable to track the conversions accurately. With the numbers of conversions that we believe are taking place, we have to provide accurate justification to fix the issue.

Please call me if you have any questions or concerns.

Subject: IMPORTANT UPDATED GUIDANCE: Processing Guidance for FMUAs and ERO

Chief / Deputies: The below is a **temporary change** to Chief Provost' guidance dated November 15, 2017, as it relates to the processing of Family Units (FMUAs) as Expedited Removals (ER) versus Warrant of Arrest / Notice to Appear (WA/NTA).

Historically, this comes at a time when USBP experiences a low seasonal trend in apprehensions; however, due to ERO's current detention challenges, over the past several months we have seen large numbers of family units gather south of the border and an increase of FMUAs apprehended by Border Patrol agents (BPAs). USBP will not release illegal aliens in custody. All USBP apprehensions that require detention will be transferred to ERO for long term holding and processing.

Currently, ERO is at full capacity within their Family Residential Centers (FRCs) which house illegal aliens comprised of family units. In the last few days, USBP has been experiencing significant operational challenges due to the processing and holding of FMUAs as ERs due to ERO's inability to pick up and transfer these FMUAs out of USBP custody. ERO has requested that we process FMUAs as WA/NTAs when they are at full capacity in the FRCs. It is easier for ERO to change their custody status of WA/NTAs under these considerations. As a reminder, USBP will not release illegal aliens from custody. Custody determinations are made by ERO.

Below are ERO's requirements for notification:

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

To that end, USBP will continue to process as ERs unless notified by the FODs of no bedspace availability. USBP will then process as WA/NTAs as needed. Once we are notified ERO has bed space available, we will process as ERs. We understand that this may create a strain on our processing capabilities; however, we will not let this affect our operations and you will need to adjust accordingly. With that said, CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation. From this day forward, all Sectors will report daily the numbers of WA/NTA's due to lack of detention space. The CBP Migration CAT will coordinate the tracking and reporting. Please provide the daily numbers to LEOD until the CAT stands up on Monday, 11/20/17. Further direction will be forthcoming from the CAT.

Expedited Removal is the preferred consequence as detention and removal is key to reducing pull factors that have a negative impact on total flow. We stand by the President's Immigration priorities (document attached) and will continue to push forward on these priorities, while mitigating external factors (ERO's detention space) that impact our USBP operations. We will use this current environment to demonstrate to Congress that these are the challenges and issues that require legislative changes that USBP Headquarters has been working to accomplish.

Instructions for I-213 Narrative for WA/NTA Paperwork:

- Please have your processing personnel insert the following statement in **ALL** FMUAs I-213s that are processed as WA/NTA “ (b)(5)

(b)(5) ”

If you have any questions, please feel free to contact me.

Thank you!

Currently, ERO is at full capacity within their Family Residential Centers (FRCs) which house illegal aliens comprised of family units. In the last few days, USBP has been experiencing significant operational challenges due to the processing and holding of FMUAs as ERs due to ERO's inability to pick up and transfer these FMUAs out of USBP custody. ERO has requested that we process FMUAs as WA/NTAs when they are at full capacity in the FRCs. It is easier for ERO to change their custody status of WA/NTAs under these considerations. As a reminder, USBP will not release illegal aliens from custody. Custody determinations are made by ERO.

Below are ERO's requirements for notification:

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

To that end, USBP will continue to process as ERs unless notified by the FODs of no bedspace availability. USBP will then process as WA/NTAs as needed. Once we are notified ERO has bed space available, we will process as ERs. We understand that this may create a strain on our processing capabilities; however, we will not let this affect our operations and you will need to adjust accordingly. With that said, CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation. From this day forward, all Sectors will report daily the numbers of WA/NTA's due to lack of detention space. The CBP Migration CAT will coordinate the tracking and reporting. Please provide the daily numbers to LEOD until the CAT stands up on Monday, 11/20/17. Further direction will be forthcoming from the CAT.

Expedited Removal is the preferred consequence as detention and removal is key to reducing pull factors that have a negative impact on total flow. We stand by the President's Immigration priorities (document attached) and will continue to push forward on these priorities, while mitigating external factors (ERO's detention space) that impact our USBP operations. We will use this current environment to demonstrate to Congress that these are the challenges and issues that require legislative changes that USBP Headquarters has been working to accomplish.

Chiefs / Deputies-

On November 17, 2017, Deputy Chief (b)(7)(E) iterated guidance (see attached) as it relates to processing FMUA's as Expedited Removals (ER) and not Warrant of Arrest/Notice to Appear (WA/NTA). This guidance articulated that FMUA's may be processed as WA/NTAs only when Family Residential Centers (FRC) are at full capacity.

This means all aliens amenable to ER will be processed as an ER unless notified there is no bed space. In addition, USBP will not release illegal aliens from custody without approval from Chief Provost. Requests for release from custody will be transmitted to the respective LEOD Corridor (east or west) and staffed through HQ.

These guidelines are critical. To ensure apprehensions are processed via ER and only those requiring issuance of a NTA/WA receive one, the following actions will occur:

1. Sectors identify a primary and secondary POC to review processing matters with HQ staff. Transmit POCs via email by 12:30 pm January 16, 2017 to respective corridor liaisons.
2. Sectors report the amount of conversions from ER to NTA/WA to the Migration CAT (MCAT) daily by 8:00 am (via attached form)
3. Sectors submit all requests to OR individuals to LEOD for routing to Chief Provost's office for approval

It is critical that your POCs are identified in a timely manner. These individuals will be our initial point of contact for matters involving conversions after departing USBP custody. Additionally, the MCAT and LEOD Ops teams will utilize the identified POCs to de-conflict matters associated with the review of records, bed space, ORs and other matters deemed essential.

To review the processing dispositions, HQ will work with your POCs to sample the dispositions of previously detained illegal aliens. It is critical that we review this matter appropriately and provide Chief Provost with the information necessary to advocate for additional bed space for illegal aliens detained by the Border Patrol.

Thank you for your adherence to this guidance and providing your POCs in a timely manner. I realize that this adds additional work for your teams, we have tried to pull this info electronically, but we are unable to track the conversions accurately. With the numbers of conversions that we believe are taking place, we have to provide accurate justification to fix the issue.

Please call me if you have any questions or concerns.

Chief / Deputies: The below is a temporary change to Chief Provost's guidance dated November 15, 2017, as it relates to the processing of Family Units (FMUAs) as Expedited Removals (ER) versus Warrant of Arrest / Notice to Appear (WA/NTA).

Historically, this comes at a time when USBP experiences a low seasonal trend in apprehensions; however, due to ERO's current detention challenges, over the past several months we have seen large numbers of family units gather south of the border and an increase of FMUAs apprehended by Border Patrol agents (BPAs). USBP will not release illegal aliens in custody. All USBP apprehensions that require detention will be transferred to ERO for long term holding and processing.

Currently, ERO is at full capacity within their Family Residential Centers (FRCs) which house illegal aliens comprised of family units. In the last few days, USBP has been experiencing significant operational challenges due to the processing and holding of FMUAs as ERs due to ERO's inability to pick up and transfer these FMUAs out of USBP custody. As a reminder, USBP will not release illegal aliens from custody. Custody determinations are made by ERO.

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

To that end, USBP will continue to process as ERs unless notified by the FODs of no bedspace availability. USBP will then process as WA/NTAs as needed. Once we are notified ERO has bed space available, we will process as ERs. We understand that this may create a strain on our processing capabilities; however, we will not let this affect our operations and you will need to adjust accordingly. With that said, CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation. From this day forward, all Sectors will report daily the numbers of WA/NTA's due to lack of detention space. The CBP Migration CAT will coordinate the tracking and reporting. Please provide the daily numbers to LEOD until the CAT stands up on Monday, 11/20/17. Further direction will be forthcoming from the CAT.

Good Evening,

The following is simplified and summarized guidance received this afternoon pertaining to recent HQ communications.

As a general reminder request, please reiterate to agents and supervisors that USBP/SDC will not release illegal aliens from custody.

During normal state operations we will continue processing FMUA subjects as we have been to date as ER's, however when ERO is at full capacity within their Family Residential Centers (FRCs) they will notify USBP, and USBP has agreed to process the FMUA's as NTA.

Below are ERO's requirements for notification:

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

I or SDC Command Staff will notify the field immediately when we receive proper notification to process as NTA or revert back to ER.

CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation.

WHEN we must shift to NTA processing due to lack of bed space the following must occur:

- Your personnel will have to provide a daily AM Report of the number of WA/NTA's processed due to the lack of bed space to OO (b)(6), (b)(7)(C) and I. Additional information for time due will be forthcoming. I anticipate it being similar to past data call requirements.
- **213's will require the following specific language included:** " (b)(5)
(b)(5)

(NOTE: All personnel should be aware that any request for an OR for humanitarian, medical, or other extenuation circumstances requires SDC leadership notification, who in turn will coordinate with HQ USBP. I remain the POC for such requests.)

At this time as a Sector we are Ops normal and remain steady state. We will continue with ER and for those that inquired about 3rd trimester pregnant female subjects I just received word from HQ that we may continue with our agreed to practice of NTA with ERO.

Have a wonderful weekend.

Thank you.

Just re-sending this as a reminder, now that we are NTAing FMUs. Please note below what we need to put in the narrative, and that we need a count of how many we do per day. Mid's inside supervisor, please get a count of how many FMU NTAs were done for the day and forward that info to OO (b)(6), (b)(7)(C) and ACPA (b)(6), (b)(7)(C) CCing CHU command and FOS.

Subject: Tracking of ER Conversions to WA/NTA

Chiefs / Deputies-

On November 17, 2017, Deputy Chief (b)(6), (b)(7)(C) iterated guidance (see attached) as it relates to processing FMUA's as Expedited Removals (ER) and not Warrant of Arrest/Notice to Appear (WA/NTA). This guidance articulated that FMUA's may be processed as WA/NTAs only when Family Residential Centers (FRC) are at full capacity.

This means all aliens amenable to ER will be processed as an ER unless notified there is no bed space. In addition, USBP will not release illegal aliens from custody without approval from Chief Provost. Requests for release from custody will be transmitted to the respective LEOD Corridor (east or west) and staffed through HQ.

These guidelines are critical. We are trying to hold ICE accountable for detaining BP apprehensions. To ensure apprehensions are processed via ER and only those requiring issuance of a NTA/WA receive one, the following actions will occur:

1. Sectors identify a primary and secondary POC to review processing matters with HQ staff. Transmit POCs via email by 12:30 pm January 16, 2017 to respective corridor liaisons.

2. Sectors report the amount of conversions from ER to NTA/WA to the Migration CAT (MCAT) daily by 8:00 am (via attached form)
3. Sectors submit all requests to OR individuals to LEOD for routing to Chief Provost's office for approval

It is critical that your POCs are identified in a timely manner. These individuals will be our initial point of contact for matters involving conversions after departing USBP custody. Additionally, the MCAT and LEOD Ops teams will utilize the identified POCs to de-conflict matters associated with the review of records, bed space, ORs and other matters deemed essential.

To review the processing dispositions, HQ will work with your POCs to sample the dispositions of previously detained illegal aliens. This sample is likely to reveal that conversions from the ER to NTA/WA are happening after detainees leave our custody. It is critical that we review this matter appropriately and provide Chief Provost with the information necessary to advocate for additional bed space for illegal aliens detained by the Border Patrol.

Thank you for your adherence to this guidance and providing your POCs in a timely manner. I realize that this adds additional work for your teams, we have tried to pull this info electronically, but we are unable to track the conversions accurately. With the numbers of conversions that we believe are taking place, we have to provide accurate justification to fix the issue.

Please call me if you have any questions or concerns.

Subject: IMPORTANT UPDATED GUIDANCE: Processing Guidance for FMUAs and ERO

Chief / Deputies: The below is a **temporary change** to Chief Provost's guidance dated November 15, 2017, as it relates to the processing of Family Units (FMUAs) as Expedited Removals (ER) versus Warrant of Arrest / Notice to Appear (WA/NTA).

Historically, this comes at a time when USBP experiences a low seasonal trend in apprehensions; however, due to ERO's current detention challenges, over the past several months we have seen large numbers of family units gather south of the border and an increase of FMUAs apprehended by Border Patrol agents (BPAs). USBP will not release illegal aliens in custody. All USBP apprehensions that require detention will be transferred to ERO for long term holding and processing.

Currently, ERO is at full capacity within their Family Residential Centers (FRCs) which house illegal aliens comprised of family units. In the last few days, USBP has been experiencing significant operational challenges due to the processing and holding of FMUAs as ERs due to ERO's inability to pick up and transfer these FMUAs out of USBP custody. ERO has requested that we process FMUAs as WA/NTAs when they are at full capacity in the FRCs. It is easier for ERO to change their custody status of WA/NTAs under these considerations. As a reminder, USBP will not release illegal aliens from custody. Custody determinations are made by ERO.

Below are ERO's requirements for notification:

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

To that end, USBP will continue to process as ERs unless notified by the FODs of no bedspace availability. USBP will then process as WA/NTAs as needed. Once we are notified ERO has bed space available, we will process as ERs. We understand that this may create a strain on our processing capabilities; however, we will not let

this affect our operations and you will need to adjust accordingly. With that said, CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation. From this day forward, all Sectors will report daily the numbers of WA/NTA's due to lack of detention space. The CBP Migration CAT will coordinate the tracking and reporting. Please provide the daily numbers to LEOD until the CAT stands up on Monday, 11/20/17. Further direction will be forthcoming from the CAT.

Expedited Removal is the preferred consequence as detention and removal is key to reducing pull factors that have a negative impact on total flow. We stand by the President's Immigration priorities (document attached) and will continue to push forward on these priorities, while mitigating external factors (ERO's detention space) that impact our USBP operations. We will use this current environment to demonstrate to Congress that these are the challenges and issues that require legislative changes that USBP Headquarters has been working to accomplish.

Instructions for I-213 Narrative for WA/NTA Paperwork:

- Please have your processing personnel insert the following statement in **ALL** FMUAs I-213s that are processed as WA/NTA "Subject will be turned over to ICE – ERO as WA/NTA due to lack of bed space at the FRC."

If you have any questions, please feel free to contact me.

Thank you!

Good Evening,

The following is simplified and summarized guidance received this afternoon pertaining to recent HQ communications.

As a general reminder request, please reiterate to agents and supervisors that USBP/SDC will not release illegal aliens from custody.

During normal state operations we will continue processing FMUA subjects as we have been to date as ER's, however when ERO is at full capacity within their Family Residential Centers (FRCs) they will notify USBP, and USBP has agreed to process the FMUA's as NTA.

Below are ERO's requirements for notification:

- The ERO FODs will notify USBP Headquarters and Sectors when ERO is at capacity and USBP will need to process as WA/NTAs;
- Similarly, ERO FODs will make notification when bed space is available and USBP will return to processing as ERs.

I or SDC Command Staff will notify the field immediately when we receive proper notification to process as NTA or revert back to ER.

CBP will be standing up the Migration CAT once again to assist with monitoring and managing the situation.

WHEN we must shift to NTA processing due to lack of bed space the following must occur:

- Your personnel will have to provide a daily AM Report of the number of WA/NTA's processed due to the lack of bed space to (b)(6), (b)(7)(C) and I. Additional information for time due will be forthcoming. I anticipate it being similar to past data call requirements.
- **213's will require the following specific language included:** (b)(5)
(b)(5)

(NOTE: All personnel should be aware that any request for an OR for humanitarian, medical, or other extenuation circumstances requires SDC leadership notification, who in turn will coordinate with HQ USBP. I remain the POC for such requests.)

At this time as a Sector we are Ops normal and remain steady state. We will continue with ER and for those that inquired about 3rd trimester pregnant female subjects I just received word from HQ that we may continue with our agreed to practice of NTA with ERO.

Have a wonderful weekend.

Thank you.

Thanks you for the assistance in this matter (b)(6), (b)(7)(C) and I spent half a day yesterday conducting an inquiry into the same thing and providing the PD a brief on the issue. We came to the same conclusions. She is working directly with the FOD to address the existing issues, but we realize we have some work to do at the port. He sent out some guidance which I will forward to you for awareness.

Please keep us looped in on any discussion or arrangements with ERO. We will continue to muster with Supervisors and Chiefs. Watch Commanders are continuing to ask for a status on cases submitted for placement/transportation.

Thank You

Regarding the (b)(7)(E) threshold for detaining juveniles (UAC and FAMU).

We have been working to determine any other issues (other than ERO not acting on placement on the weekends) that may need to be addressed to ensure OFO is doing all we can to timely process and provide accurate reporting.

Using a sample of FAMU cases from the weekend of April 8 – 10, these sample cases were researched and one area was found that may need to be addressed and two additional areas that are recommended to emphasize to avoid any future issues.

(b)(6), (b)(7)(C), (b)(7)(E)

Area to be reviewed / addressed:

- 1) FAMU cases waiting in queue at Ysleta and BOTA. Please see columns highlighted in yellow with red arrows above. There were six (6) cases that were in OFO custody for (b)(7)(E) or more before case processing was initiated in SIGMA. Three of these cases were in OFO custody for more than (b)(7)(E) before SIGMA processing was initiated. The Port reported a systems outage on Thursday that may have contributed to longer processing times, however, most of these cases were apprehended on Wednesday.

Two of the six cases were TOT ERO on Friday afternoon, two on Saturday, one on Monday, and one on Tuesday. (b)(7)(E)
appears that the length of time held at the Port before case processing was initiated also contributed.

Additional areas recommended to emphasize:

- 2) Master Detention Logs in PCS. The total hours in custody on the Daily UAC / FAMU reports sent to HQ are calculated from the Apprehension Date/Time and the TOT ERO Date/Time. It was determined that the TOT ERO information reported by the Port is coming directly from the Master Detention Logs. Therefore, **it is extremely important for the Master Detention Logs (especially the date and time subject TOT/ departed) to be accurate**. If inaccurate, we could be inadvertently reporting that we held someone in custody for a longer period of time than we actually held them. A review of the master logs and personal detention logs for this sample of cases indicate that the master detention logs were accurate. Recommend emphasizing to Supervisors how important it is for these logs to continue to be accurate to avoid any reporting errors.
- 3) Port's (b)(7)(E) groupbox for communicating the placement requests to ERO. As we discussed, it may be advisable for the Port to keep these emails for a certain period of time instead of deleting them. If a third party (HQ, ERO, etc.) questions when or how the Port made the placement requests, these emails in the groupbox may be very helpful to have.

HQ is taking an interest in family unit processing times and asking for reasons when any go over (b)(7)(E) detention time at a POE. The length of time HHS and ERO takes for placement has been explained to HQ, especially the weekend issues where (b)(7)(E)
(b)(7)(E)

However, one of the issues brought up are Port processing times. While many FAMU are processed within two shifts, some processed within 4 to 6 hours; over the last several days there appears to be about 10 FAMU whose cases were not completed until three or four shifts later.
